**Job Description:**

Conduct cybersecurity assessments of Department of Defense contractors and supporting national cybersecurity entities to ensure they are compliant in providing adequate security to safeguard covered defense information that resides on or is transiting through their internal information system(s) or network(s).

**Qualifications:**

**To qualify for GS-12 (Developmental Level):** Applicants must possess one year of specialized experience equivalent to the next lower grade/level GS-11 or equivalent under other pay systems in the Federal service, military or private sector. Specialized experience is defined as: **experience operating, administering, maintaining, and protecting information technology (IT) networks or systems; experience in IT security management tools and procedures to implement, monitor and evaluate information security (IS)/cybersecurity compliance with policies and regulations.**

**To qualify for GS-13 (Full Performance Level):** Applicants must possess one year of specialized experience equivalent to the next lower grade/level GS-12 or equivalent under other pay systems in the Federal service, military or private sector. Specialized experience is defined as: **experience operating, administering, maintaining, and protecting information technology (IT) networks or systems; experience in IT security management tools and procedures to implement, monitor and evaluate information security (IS)/cybersecurity compliance with policies and regulations.**

**AND IT-related experience demonstrating the following:**

- Attention to Detail – Is thorough when performing work and conscientious about attending to detail
- Oral Communication – Expresses information (for example, ideas or facts) to individuals or groups effectively, taking into account the audience and nature of the information (for example, technical, sensitive, controversial); makes clear and convincing oral presentations; listens to others, attends to nonverbal cues, and responds appropriately
- Problem Solving – Identifies problems; determines accuracy and relevance of information; uses sound judgment to generate and evaluate alternatives, and to make recommendations

*Education cannot be substituted for experience.*

**You will be evaluated on the basis of your level of competency in the following areas:**

- Technical prowress in multiple IT areas
- Information Systems Security/Cybersecurity Practices
- Oral and Written Communications

**Other Requirements:**

- This position requires professional certification IAT Level II, Baseline and Computing Environment Certification under DoD Manual 8570.01-m, "Information Assurance Workforce Improvement Program", or DoD Directive 8140.1, "Cyberspace Workforce Management ", within six months of entering the position.
- This position requires Defense Acquisition Workforce Improvement Act (DAWIA) Engineering & Technical Management Foundational certification within two years of entering the position.
- Must be able to obtain and maintain a secret security clearance.
- U.S. citizenship is required.
